Brief Autobiography

As a mere mortal I've spent my entire life on the winding roads of personal and spiritual discovery, all part of my pursuit of growth on many fronts. Maybe that's why I've been able to stare into and survive the abyss several times in my life, who knows?

All I know is that from the age of four I saw spirit which is something that obviously shapes ones life path and identity very quickly. I suspect that's why; mysticism and personal healing have always been an integral part of my life. Why I've always tried to live within the light and ultimately why I suspect I wrote all my self help books commencing with "Raphael's Legacy battling for the right to life".

Love, peace and best wishes,

When we are truly grounded, only then are we at one.

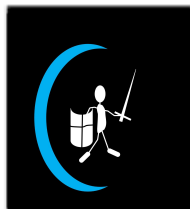

When we release fear, we begin the process of growth.

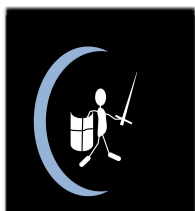

When we forgive ourselves, our soul sings like an angel.

When we love ourselves, so love pours into our life.

When we learn to listen, all our prayers are heard.

When we use our vision, we truly learn how to see.

When we accept our higher self, so we live in the now.
